### NICHOLS FIELD AND FOREST

The 120.86-acre Nichols Field and Forest features a well-kept playing field, a picnic and play area for small children, a disc golf course, and 2.3 miles of hiking trails.

The property was once the site of a farm belonging to the Nichols family. The town acquired the site in 1969 from the Estate of Mary K. Nichols. Since then the property has been developed for recreational activities and for establishment and maintenance of the municipal transfer station, which is located in the site's southeastern corner.
