WHY

To protect our groundwater from contamination by hazardous wastes. When hazardous wastes are poured down the sink or toilet, dumped "out back", poured into a street drain, or put out with the trash, they eventually make their way into our water supply. Hazardous materials which cannot be used up should be disposed of properly by licensed professional haulers. They have the facilities to incinerate, neutralize, store or recycle them.
Please bring proof of residency.

HOW

Preparation at Home

- Pack carefully, original containers only. Must be sealed & labeled.
- Do not mix materials.
- Maximum limits per household:
Liquid-20 total gallons.
5 gallon containers or less.
Solid-100 total pounds.
- Place carefully in vehicle, prevent tipping.
- Drive carefully. Do not smoke while handling and transporting materials.

At the Collection Site

- Remain in your car.
- Follow directions of on-site official.
- A licensed hauler will be ready to accept your household hazardous waste. We can't accept materials containing asbestos. No Commercial Users.
